What we do

South Zone River is an established investment firm based in London, England. We focus on providing lucrative investment opportunities in real estate, forex & crypto, and stocks & shares, supported by a transparent and rewarding agent program. Our objective is to empower investors and agents alike with reliable, high-return options.

Sectors We Invest In

1 Real Estate

Real estate is a tangible asset that historically appreciates in value. South Zone River's real estate portfolio includes residential, commercial, and industrial properties. Why invest in real estate?

- Asset-backed security: Your investment is tied to physical properties.
- Market growth: Real estate values generally rise over time, offering capital appreciation.
- Rental income: Regular income streams from leased properties.
- Diversification: Provides a balance against volatile assets like forex and crypto.
- Impact: Investing in properties contributes to economic growth and infrastructure development.

Sectors We Invest In

2 Forex and Crypto

Forex (foreign exchange) and cryptocurrencies offer high liquidity and 24/7 global trading opportunities.

- High liquidity: The forex market is the most liquid in the world, with daily volumes over \$6 trillion.
- Diversification: Crypto assets introduce digital innovation and growth potential.
- Profit potential: High volatility provides numerous trading opportunities.
- Short-term gains: Daily returns at 2% make it ideal for investors seeking quick, profitable trades.

3 Stocks and Shares

Our stock market portfolio focuses on blue-chip and growth stocks, delivering consistent returns.

- Ownership stakes: Share in the success of leading companies.
- Long-term growth: Benefit from the power of compounding and corporate profits.
- Dividend income: Earn regular dividends alongside capital gains.
- Global exposure: Diversify across sectors and geographies.
- Stability: A proven vehicle for long-term wealth accumulation.

REVIEWS AND COMMENTS

I will say I've loved the service I've gotten from Southzone River Investment Services. Since I joined the community, even though I had just started with the minimum \$5000 at the time, I felt like they treated me like I was one of their biggest customers. -
OLEG BRUSOV (INVESTOR)

I absolutely love Southzone River Investment Services. When my Wife passed, they set up an investment account for my life insurance benefits, handled the rollover of an old Vanguard 401(k) account as well as my wife's 401(k) into an inherited IRA account. The team has been excellent, always available and even did a "courtesy sale" of some dead stocks I had in my original portfolio. I highly recommend Southzone River Investment Services to anyone. -SEAMUS WALSH (INVESTOR)

I originally signed up to test the waters in November of 2018. After the first month, I decided to transfer my investments over. The feature I love the most is being able to make smaller deposits that immediately makes profits. This means that I don't have any idle cash sitting around after having transferred it, it's immediately put to use.

It is a supportive community with high values of each leader/director. That impressed me from the get go only a few months back. There is a great deal at stake, now more than ever, when it comes to our finances. Trust is essential and that has been earned in my mind with Adam especially. I have a lot to lose if my humble investments are not managed responsibly. I'm grateful to be asked about my goals and shown a path to follow as a team member. That one is outstanding and a rare find.

For me, the financial advice and planning sections were the biggest perk of Southzone River Investment Services. Like most of us, I'm juggling a few goals including saving for retirement, and I'm glad Southzone River Investment Services can help keep me on schedule. -

FINAL WORDS

It is my pleasure to welcome you to our uniquely integrated financial investment planning and ongoing financial consulting services. I am confident that you will quickly realize what a difference our approach will make in your life. Over the nearly 3 decades of my professional life as a financial investment adviser, I have to thank my client/friends who have themselves firmly expressed and shown me over these many years, that the optimal way for me to personally serve in my professional capacity as financial adviser and broker, is by knowing what makes you tick; what brings you meaning; and what, for you, is a life well lived. Most of you I imagine are accustomed to the standard investment services offered by your bank or brokers like myself. You probably think of a financial adviser/broker as someone who looks over your assets; asks you a few questions about your long-range goals and your risk tolerance and shows you 2 or 3 investment packages that he/she advises, and from which you the select the package that seems best to you. That's usually about it. Then your money is placed into that portfolio and you receive quarterly reports, and perhaps an annual or biannual review. About it, right?

That is not "about it" when you decide to come on board with Southzone River Investment Services. We have come to realize that no financial person nor investment company can optimally manage a financial portfolio in the long run if they have not discussed your highest life values; your long range desires; your short range needs and concerns; your immediate play money plans and expenditures; and any old patterns or unconscious beliefs that may be keeping you stuck from experiencing your life to it's fullest. In fact, we consider it our obligation to you that we DO talk about your money and your vision; your fears and your dreams; your health and your wealth; the places where you excel in life and the places where you find yourself getting stuck. How on earth can we craft a solid, meaningful and useful financial management tool if we don't really know who you are, where you stand, and where you are headed?

So yes; Southzone River Investment Services is different from the old static model of patriarchal money management. But yes too; I guarantee you that Southzone River Investment Services is fully empowered with the same tools, technologies, protections, and price points as other investment firms. The investment mechanisms and SEC oversights in our industry are uniform in this regard. Few realized this fact.

I absolutely know (and am told over and over by my select client base) that our key difference is what makes all the difference! We want to know you. We want to really know who you are as well as what you yearn for and where your roadblocks may lie. With this integral foundation, then can we work together to pave the most customized road map possible for successfully placing, managing, reviewing, and enjoying your wealth-building progress at each milestone and vista-point along your route. So, if this is not something you are seeking, please accept and take advantage of these free exercises in this welcome package, and no need to go further. But: if you are like me, and you are in this life to exercise your mastery of the journey while growing your capacity for enjoyment of life along the way... then let's get started. I look forward to co-creating your road map, and to our growing connection in all areas of this investment opportunity and life journey.
